## BR/BD 530 Compact Scrubbers

Low maintenance, high performance

## Easy-to-use compact scrubber ideal for cleaning medium jobs.

Kärcher's BR and BD 530 compact scrubbers have the highest price-performance ratio on the market. By mounting the battery to the machine instead of inside the chassis, the 530's achieve 40% higher tank capacity, resulting in 40% increased area performance between emptying and refilling water tanks. The additional front wheel gives increased traction, while easy-to-use controls indicate the state of the battery charge and remaining operating hours. The BR and BD 530 are the perfect choice for cleaning medium size areas.

**On-board battery:**

Easily accessible for trouble-free maintenance.

**Transport wheel at the brush head:**

Increases traction and folds away for easy cleaning.

**Worm gear with single transmission:**

Allows machine to operate quietly with low maintenance.

**Overload display:**

Indicates the state of the battery charge and remaining operating hours.

**Large tank capacity:**

Increases area performance before refilling.
